REMARKS

Claims 1-5 remain pending in the present application. Claims 1-5 have been amended. Basis for the amendments can be found throughout the specification, claims and drawings as originally filed.

CLAIM OBJECTIONS

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors. The recitation in Claim 1, lines 18-20 of partitioning portion being provided differently from the air conditioning case especially needs to be recited better. The claims have been amended to better conform to U.S. practice. Withdrawal of the objection is respectfully requested.

CONCLUSION

It is believed that all of the stated grounds of rejection have been properly traversed, accommodated, or rendered moot. Applicant therefore respectfully requests that the Examiner reconsider and withdraw all presently outstanding rejections. It is believed that a full and complete response has been made to the outstanding Office Action, and as such, the present application is in condition for allowance. Thus, prompt and favorable consideration of this amendment is respectfully requested. If the Examiner believes that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (248) 641-1600.

Respectfully submitted,
